***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance:

The cited prior art does not teach nor fairly suggest control and/or monitoring device including a control CPU connected to various peripheral devices by a communication network and an independent, second electrical security circuit separate from the communication network and forming a dedicated electrically conductive closed loop in the security configuration that is broken in the anomaly configuration, wherein the control CPU takes the context codes corresponding to operating condition of each of the peripheral devices by periodic polling of the peripheral devices according to a predetermined addressing order and commands the passage of the security circuit from the security configuration to the anomaly configuration in response to a detection of an absence of one of the codes to be compared or a disparity between the codes compared to stored reference codes. Brunius includes a main controller 12 obtaining condition of various peripheral systems 14-22 by periodic polling and operates to notify a security agency via interface 24 to the public telephone network but lacks an independent, second electrical security circuit separate from the communication network and forming a dedicated

electrically conductive closed loop in the security configuration that is broken in the anomaly configuration,

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Continued Examination Under 37 CFR 1.114***

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6-13-08 has been entered.
